

Piyush Yadav

+91 9466897267 | piyush.2024@nst.rishihood.edu.in | github.com/PiyushY111

PROFESSIONAL SUMMARY

Data Visualization & Analytics student skilled in Python, Pandas, SQL, Tableau, Excel, and Google Sheets. Experienced in building end-to-end analytics workflows — from messy raw datasets to KPI-driven dashboards and executive-ready reports. Strong focus on translating data into clear, actionable business recommendations for non-technical stakeholders.

EDUCATION

Rishihood University, Newton School of Technology

2024–2028

B.Tech. in Computer Science & Artificial Intelligence

GPA: 7/10

TECHNICAL SKILLS

Languages Python, SQL, JavaScript, TypeScript, C++

Analytics Pandas, NumPy, Statistics, KPI Design, Data Cleaning, Feature Engineering, EDA

Visualization Tableau, Excel, Google Sheets, Matplotlib, Seaborn, Dashboard Design

Tools Jupyter Notebook, Git, MySQL, MongoDB

PROJECTS

Global Developer Salary Benchmarking — INR Normalization Framework 2024

Python, Google Sheets (IFS Engine), Tableau, Stack Overflow Survey 2024

- Cleaned 65,437 rows from the Stack Overflow Developer Survey down to 12,377 valid records by removing nulls in salary, experience, country, and currency fields.
- Built a currency-to-INR conversion engine using an IFS-based lookup in Google Sheets, enabling direct salary comparisons across 100+ currencies.
- Designed a 5-KPI framework: Median Salary (INR), Median Experience, Talent ROI proxy, Language salary premium, and Remote work premium.
- Identified high-ROI hiring corridors (Venezuela, Armenia, Poland, Romania, Colombia) with 12–18 years median experience at moderate salary cost.
- Delivered a Tableau dashboard suite covering country salary comparison, tech language leaderboard, and remote vs in-person salary analysis; estimated ₹4.15 Cr annual savings per 10-person team.

F1 Constructor Sponsorship & Investment ROI Analytics 2026

Python, Pandas, Tableau, Statistical Analysis

- Built an end-to-end capstone to rank F1 constructor teams as sponsorship targets using race performance data from 2014–2024 (4,600+ records).
- Engineered features including finish reliability, position delta, and consistency indicators; created a five-KPI investment framework across momentum, reliability, and race craft.
- Validated insights with regression and t-tests; delivered a three-dashboard Tableau suite for executive-style investment decision-making.

RELEVANT COURSEWORK

Data Visualization & Analytics • Exploratory Data Analysis & Statistical Thinking • Dashboard Design & Business Reporting • Data Cleaning, Aggregation & Insight Communication

LEADERSHIP & ACTIVITIES

- Led capstone team by coordinating ETL work, report writing, and final project integration across analytics, dashboarding, and presentation tracks.
- Collaborated in cross-functional student teams on end-to-end analytics workflows from data cleaning to dashboard delivery and stakeholder reporting.
